A plain and simple DLC.. Paradox arbitrarily increases the prices of all games developed and published by them, without giving any information in advance. They literally increased by 40% or so the prices of ALL the games published by them in a very sneaky manner, and when they were questioned, they claimed it was a fair change "due to increase in purchasing power in the regions that the price was increased".

No, there was not even a single bit of increase in many (or maybe any) of these regions. Regions that also happen to not have as much purchasing power.

Also, their DLC policies are worsening at every release. Giving little to irrelevant content, and asking for a high price. (That's even higher now, despite everyone complaining about their pricing, which was already bad back in the day.)

So I suggest anyone else to NOT fall in their pathetic policies, and AVOID at all costs any of their games.

Original review: <http://steamcommunity.com/vid/vexxar/recommended/42960/>. Simple additive. Would recommend when on sale.. Apparently planes in 1912 were actually people on the ground with a floating ring on their heads.. They're pilots, not planes

[If you wanted planes you probably should have checked the screenshots first. Did not see a single plane model. Would not recommend.. good planes. This DLC is pretty unique, nobody has ever tried making fancy uniforms for units that fly/ride planes, this DLC is pretty unique in my opinion.](#)
